

A destination fly fishing trip requires a great deal of preparation. It is crucial to have the most effective flies to catch your target species. This is where we can help.

Together we have acquired over 20 years of experience guiding for the Duncans. This has allowed us to learn what fly patterns are most productive.

We provide our own custom hand-tied flies as well as some of the best commercially tied flies on the market. We are confident that our flies will help you be successful on a trip of a lifetime with Dave Duncan & Sons.

All flies come barbless and ready to catch fish. Fly boxes are also available with orders upon request.

Fly orders must be placed as soon as you book your trip to avoid any possible delays

Conneaut Creek Float & Fly Shop
